### Experience

#### MERN Stack Developer Intern

Ten — *Remote*

#### (The Entrepreneurship Network)

July 2025 – Present

Worked on full-stack web features using MongoDB, Express, React, and Node.js. Built REST APIs, implemented JWT-based auth, and designed responsive UIs with Tailwind CSS. Collaborated in an Agile team and used Git/GitHub for version control.

### PROJECTS

#### PujaPathaurSeva

Developed and maintained the backend of Pujapathaur Seva, a religious service booking platform that allows users to schedule pujas and rituals with verified priests across various locations. Designed secure and scalable RESTful APIs to manage user accounts, puja listings, bookings, payments, and admin controls.

**Tech Stack:** Node.js, Express.js, MongoDB, JWT, REST API

**Live Demo:** [puja-path-seva.vercel.app](https://puja-path-seva.vercel.app)

#### E-Learning App

An e-learning app is an online learning platform. We have an app backed by courses created by skilled and expert instructors through our instructor panel. Instructors produce high-quality video and audio courses that learners can access for a fee or free.

Role: REST API for app, admin, instructors panel

**TechStack:** NodeJs, Express, MongoDB (Mongoose)

User App, Instructor panel, Admin Panel

Start Date: Sep 2023 End Date: Nov 2023

#### Organic Bazar App

An app where the user can manage his/her plants and get notifications for any nutritional needs of that plant.

Role: REST API for mobile app, in app notification, Admin panel for content management.

**TechStack:** NodeJs, Express, PostgreSQL (Sequelize)

User App, Admin Panel

Start Date: Dec 2023 End Date: Working with copy of same project with other DB like: MySQL, MongoDB
